

## WORK TO COMMENCE ON BRIGHAM YOUNG MEMORIAL HALL.

CONSTRUCTION work will soon commence on the Brigham Young Memorial building of the Latter-day Saints university. It will be at the west end of the campus, opposite the group of college buildings, opposite the east front of the temple, and will be an important improvement to the upper end of Main street. The fund for the building has accrued from the sale of the block of ground fronting on First and A streets, which the distinguished pioneer willed for church educational purposes, and not less than \$40,000 will be expended in the erection and equipment of the memorial.

As shown in the accompanying sketch, the main entrance to the memorial building will be on the north, with the west end abutting on Main street. The basement or first story will be of cut stone, and the two upper stories will be of red pressed brick, and the area of the building will be 32x125 feet. On each floor connection will be made with the circular corridor leading to Barratt hall, the adjoining building.

In the basement will be located the physical laboratory, the department of biology and class rooms. On the main floor will be a memorial room, the west end 26x50 feet in area, and ex-

tending through the upper floor. This room will be an apartment for the president's office and another for the faculty. The memorial room will be specially fitted for art works and such other productions as may be of a memorial nature surrounding the name of Brigham Young and his life work. Connecting with the president's and faculty rooms and the large corridor, it will be an ideal place for holding receptions under the auspices of the university.

On both the second and third floors the north half of the building will be reserved for class rooms. On the upper floor, at the front, is to be a large room, intended for an art studio.

A pedestal at the west front will afford a place for the lion, which figure made one of the home places of Brigham Young so famous, whenever the old building is taken down, and it is desired to preserve this piece of sculpture.

Other features of the memorial building will be art glass windows, the statue of science on the dome, and an inscription in stone at the front entrance, "The Lord Is My Light." Over the portico at the west end will be graven the words: "Science, Literature, Art."

The style of architecture of the memorial building will be renaissance.

## OFFICE HOLDERS TO BE ASSESSED

Must Pay Deficit of Republican City Committee.

## RAN SHORT IN LAST CAMPAIGN

BANK THAT LOANED MONEY INSISTS ON PAYMENT.

AN IMPORTANT CONFERENCE of the members of the Republican city committee was held last night in the office of City Attorney Nye. Money was the subject for discussion. Of this month's deficit in conducting campaigns the committee has none. It had and expended more than \$20,000 in the municipal campaign of last fall, and when it was found that Mayor Thompson and all the other candidates, except Dick Whittemore, together with eleven city councilmen, were elected, a deficit of nearly \$500 confronted the campaign committee.

This deficit was met by borrowing the money needed to pay off the bills. A local bank loaned the money on a promissory note executed by the committee, and the loan was to be repaid at the end of six months, on the expectation that long ere this the heads of departments would be appointed and many new policemen and firemen would be feeding at the public crib, all of whom would be subject to a "touch" to pay off the campaign debt. But the mayor's hands are tied in reorganizing the police and fire departments, and so long as this condition exists he will not appoint the heads of departments.

Republicans Embarrassed.

With the situation as it is, the members of the city committee find themselves very much embarrassed. There is no money in the hands of the treasurer, and the note will be due in a few days.

Here the committee were conceded to be necessary and it was decided at the meeting that an additional assessment would be levied upon all of the office holders of high and low degree. No one will be allowed to escape, not even the drivers of the city sprinkling carts who will go to work outside the business district this week, and it is doubted that any who have profited by the return of the Republican administration to power will refuse to pay the assessment.

City pay day will come on Wednesday 7 o'clock, and the treasurer of the committee gets its share out of the municipal treasury, through the wage earner, the campaign debt will be paid off at the bank where the committee's note is held for collection, without grace.

Police Find a Number of Chinese Smoking "Hop" and Land One Proprietor in Jail.

Two police officers in civilians' clothing raided an opium den on Plum alley last night, and the proprietor, Hong Chang, was taken to headquarters under arrest. He was locked up and the charge of conducting an opium joint was placed against him.

The place is said to have been running for months, and the officers have tried on numerous occasions to gain entrance into the joint. The Chinaman has been too "smooth," however, to be deceived by the officers until last night, when they entered, apparently for the purpose of indulging in the pipe. The officers at last gained entrance, and found numbers of stupid Chinamen under the influence of the drug. Chang will appear before Judge Diehl Monday afternoon.

Numbers of other places of the kind are being run on this alley, and the police propose a crusade against the traffic. Gambling houses among the Celestials are also said to be in operation, but the officers up to this time have been unable to apprehend the guilty parties. Special officers, however, will be made to put a stop to both the habit of "hitting the pipe" and of playing the game of fan-tan.

Following the tip the officers continued their search and found another opium den in operation. They raided the place and found a business man of the city indulging in the pipe. The Mongolian proprietor had evidently heard of the proposed raid and had absented himself. All of the attendants of the place had also disappeared and the man who was hitting the pipe was the only one found.

A Williams, who gave his name to the police officers and who declared that he was a brewer of this city, was found in the place and was taken to headquarters, where he was locked up for the night. He was later released on bond produced by his friends and will appear before Judge Diehl Monday to answer the charge of frequenting an opium den. He declared that he was simply in the place to visit and to see how it was run.

Happy Childhood Knows What's Best

Medicine that a child dislikes, will not do it much good. Sensible parents will give the little darlings medicine that tastes good and does good, and don't grip or gripe; the kind they like themselves.

"I rely upon Cascarets entirely in looking after my children."

"My little boy three years old was troubled with bleeding piles. He began to give him Cascarets, and before he had taken one he was sound and well."

"My little daughter complained of not feeling well and began to vomit and became very sick. A half box of Cascarets did the trick. She has been healthy ever since."

"I always keep Cascarets in the house for the children as well as myself."

"I have never used any remedy that has been as good as Cascarets. Have to keep them like candy. Mrs. John F. Foy, Glenview, Ill."

"I have never been without Cascarets. My children are always delighted when I give them a portion of a tablet and cry for more. They have a permanent place in my home."
